

Infrastructure to support our efforts

With the help of our sponsors and the community as a whole we are operating our center at Naugarh, Chandauli which includes an office, a seminar / conference hall, hostel like accommodations for trainees and guests, and a health center with a doctor and nurse. The health center includes the medical supplies and lab equipment needed for our center. We maintain a garden with herbal plants, and deliver produce to villages.

We are grateful to our dedicated and well trained staff, social workers, and volunteers who are fulfilling our goals and making our vision a reality.

Scope for the future

'Dream is not that you see in sleep, dream is something that does not let you sleep.' APJ Abdul Kalam

We have done a remarkable job but still have much more to do for the betterment of children, women, the elderly and our society as a whole. Our health care network needs to be improved. We understand the daunting tasks ahead but are inspired to make a difference!

How you can help

We need your help! Each and every contribution is important for the betterment of the people that we support. People who are below the poverty line and are deprived of their basic needs and child education.
